# Exercici 1

## Instal·lació de navegadors

**Objectiu:** Poder provar les pàgines web que desenvoluparem en diferents navegadors, per tal d'assegurar que funciona en tots adequadament.

En una màquina virtual Windows (Windows 10 o 11), instal·la la última versió dels navegadors següents (indica aquí la versió que has instal·lat):

- Edge (Ja està pre-instal·lat): V44.18362.1.0
- Firefox: V143.0.1
- Chrome: V140.0.7339.208
- Opera: V122.0.5643.51

1. Fes una captura en cada navegador de l'apartat on s'indica la versió.

Opera:

Google:

## Firefox:

## Microsoft Edge:

2. Obre una mateixa pàgina web en cada navegador, fes captura i comenta si noteu algun tipus de diferència.

La diferència més gran que es nota es l'apartat estètic de cada navegador, que segurament es influenciat per lo CSS.

## Microsoft Edge:

Opera:

Google:

Firefox:

3. Mostra l'opció que permet veure el Codi Font de la pàgina en cada navegador i fes una captura on es vegi el codi.

Firefox:

```

</head>
<body style="--theme-text-color: white; --theme-shadow-color: transparent">
</body>
</html>
```

## Microsoft Edge:

# Exercici 2

## Aplicant HTML i les primeres regles CSS

Crea la carpeta A1 a la teva carpeta de treball, i descarrega allí els fitxers index.html, style.css i la carpeta images adjunts a aquesta pràctica.

Amb l'ajuda dels exemples exposats a la teoria, fes les modificacions oportunes només al fitxer style.css per aconseguir un resultat semblant a la següent imatge. No hi ha que modificar res al document index.html.

Els canvis a fer són els següents:

- Afegir una icona per a cadascun dels diferents tipus de referència (una icona diferent per articles, llibres i recursos web). Les icones s'entreguen a la carpeta images.
- Ocultar l'avís de copyright de la part inferior de la pàgina.
- Canviar l'aspecte del títol, aconseguint que destaqueu la 2a cita

Com a resultat d'aquest exercici, cal entregar els següents fitxers:

- index.html
- style.css
- carpeta images

Expliqueu aquí breument què heu afegit i/o modificat:

Per a aconseguir el resultat he modificat les següents propietats del fitxer CSS:

1. Per a posar les icones he afegit les tres línies de codi amb background, la primera agarra la imatge que voldríem posar, la segona li diem que no se repeteixi la imatge més d'una vegada, la tercera la posicionarem correctament on volem.

```
.book {  
    color: red;  
    border-right: 5px solid red;  
    background-image: url('images/llibres.png');  
    background-repeat: no-repeat;  
    background-position: right;  
}
```

2. Per a amagar el footer només fa falta posar una línia de codi que es display: none

```
#footer {  
    display: none;  
    font-size: 0.5em;  
    border-top: 1px solid #000;  
    margin-top: 20px;  
}
```

3. Per a canviar el color del titol y del text, anirem a la etiqueta que els modifica hi posarem la linea de codic color : red;

```
.book {  
    color: red;  
    border-right: 5px solid red;  
    background-image: url('images/llibres.png');  
    background-repeat: no-repeat;  
    background-position: right;  
}
```

Per últim per a modificar el tamany del títol modificarem el valor ja existent que augmenta el tamany, que serà la línia de codi font-size: 3.5em;

```
h1 {  
    color: red;  
    text-align: center;  
    text-transform: uppercase;  
    font-size: 3.5em;  
    margin-bottom: 30px;  
    background: url('images/headbg.png') top left repeat;  
    padding: 10px 0;  
}
```

# Exercici 3

## Validació W3C per comprovar estàndards web

- 1) Tria 5 pàgines web que coneus (per exemple, <http://www.iesebre.com>) i comprova amb el validador corresponent si compleixen els estàndards web, tant HTML com CSS. Comenta els resultats que s'obtenen.

- [insebre.cat](#):

HTML:

Press the Message Filtering button to collapse the filtering options and error/warning/info counts.  
Message Filtering

Errors (53) · Hide all errors · Show all errors

1 The `[cellspacing]` attribute on the `[table]` element is obsolete. [Use CSS instead.](#) (33) · Hide all · Show all

1.1  The `[cellspacing]` attribute on the `[table]` element is obsolete. [Use CSS instead.](#) (5)

1.2  The `[cellpadding]` attribute on the `[table]` element is obsolete. [Use CSS instead.](#) (3)

1.3  The `[border]` attribute on the `[table]` element is obsolete. [Use CSS instead.](#) (3)

1.4  The `[width]` attribute on the `[td]` element is obsolete. [Use CSS instead.](#) (4)

1.5  The `[align]` attribute on the `[table]` element is obsolete. [Use CSS instead.](#) (2)

1.6  The `[align]` attribute on the `[div]` element is obsolete. [Use CSS instead.](#) (16)

2  An `[img]` element must have an `[alt]` attribute, except under certain conditions. For details, consult [guidance on providing text alternatives for images](#).

3  No space between attributes. (2)

4  Quote `'` in attribute name. Probable cause: Matching quote missing somewhere earlier. (2)

5  Attribute `'ebre'` not allowed on element `[img]` at this point. (2)

6  Duplicate ID `[offcanvas-toggler]`

7  Bad value `/images/banner%20complecio.png#joomlaImage://local-images/banner_complecio.png?width=6912&height=3456` for attribute fragment: space is not allowed.

los primers errors indiquen que el codi esta obsolet i que caldria actualitzarlo.

- 2) Esbrina com desactivar la compatibilitat amb imatges o el JavaScript d'alguns navegadors que utilitzis, i prova al menys 2 de les pàgines anteriors amb aquestes característiques desactivades. Comenta els resultats que s'obtenen. Després, torna a activar tot allò que hagis tocat.

Navegador Opera:

1. Anem a la configuració del navegador.
2. Busca la secció de "Llocs web" o "Privadesa i seguretat", depenent del teu navegador.
3. Dins d'aquesta secció trobarem l'opció de "JavaScript".
4. Aquí podem desactivar JavaScript per complet o configurar preferències específiques per a llocs web individuals.

Youtube:

iEduca:

A screenshot of the iEduca website. The header features the iEduca logo on the left, followed by social media icons (Facebook, LinkedIn, Twitter, etc.) and a search bar. On the right side of the header are language selection buttons (Catalan, English, Spanish) and a blue button labeled "Accedeix a iEduca". Below the header, there is a large, abstract purple graphic element on the right side of the page. At the bottom right, there is a purple button with the text "Demo Gratis" and a small arrow icon.

- 3) Inspecciona el codi d'aquestes 5 pàgines, i mostra si tenen elements meta al head.  
 Explica en cas de trobar-ne què fa cada element que has trobat, i comenta si són adequats els valors que els hi han donat.

lesMontsia utilitza el meta name = keyword content = etc. per a especificar paraules clau

leduca:

Ieduca utilitza el meta charset = UTF-8 per a establir la codificació de caracters

```

En el archiu meta de github agarra contingut del controlador de ruta, i en el nostre cas estem al dashboard.

# Exercici 4

## Creació de pàgines HTML

Crea una pàgina web anomenada A1\_ex5\_Cognom\_Nom.html, amb títols de diferents nivell. El resultat ha de ser similar a la següent imatge:

- El text del fitxer ho teniu adjunt al document A1\_ex5\_text.odt (per copiar i enganxar al HTML).
- Per aconseguir-ho, has de tornar a utilitzar el document CSS de l'exercici 2 (style.css). Per tant, fes una còpia d'aquest document, i renombra'l amb el nom A1\_ex5\_Cognom\_Nom.css.
- Fes els canvis oportuns al document HTML perquè utilitzi aquest document CSS com a full d'estils.
- Fes els canvis oportuns al document CSS per tal d'aconseguir un resultat similar. Esborra tot allò que crequis convenient del document CSS original i que ara ja no ens fa falta.
